

We've lowered some of our fees

September 2024

We regularly review our fees to reflect the real cost of moving your money - so you never pay more than you need to.

The fee for your transfer is based on:

- the currency you're sending from,
- the currency the recipient receives, and
- how you're funding the transfer.

After the latest review, fees for some routes got cheaper. You can download this information as a PDF. [Learn more about why we do this.](#)

The rest of this post outlines the currencies and payment methods that have changed.

Use our [fee calculator](#) to see if your route was impacted by this change and how much your next transfer will cost.

It's now cheaper to send from:

Currency	Pay-in method
USD CHF HKD NZD SGD TRY	Bank transfer, Wise account
CAD	Bank cards

And cheaper to send to:

Currency	Pay-out method
RON BDT HKD AED BRL ILS	Bank transfer, Wise account

[See how much our new fees may impact the cost of your transfers.](#)

When do price decreases apply to me?

When we decrease our prices, the change is immediately available for all Wise customers. We'll do this before notifying you, so that you can start benefiting from the savings as soon as possible.

See [Terms of Use](#) or visit [Wise Fees & Pricing](#) for the most up-to-date information
